

The AAPT Educational Event is an annual opportunity for delegates to update their knowledge of scientific, technological, legal and social issues relating to the healthcare science profession of anatomical pathology technology.

The event also offers a unique platform for exhibitors to present their products and services. This year the annual educational event will be held in Edinburgh at the Royal College of Surgeons on 28th September 2019.

Exhibition space is available, but is limited and will be offered as a priority to Company Members of the AAPT in the first instance.

Previous events have received excellent feedback from delegates and trade, the audience is predominantly made up of technologists from the United Kingdom, although we often have delegates from Denmark, Norway, Sweden and the Republic of Ireland.
